Newsmx Finance Profile

NewsmxFinance.com reaches a highly desirable and extremely responsive audience of investors who are anxious to hear the latest financial and investment news. These consumers not only track the economy, but also want the latest stock, bond, commodity, precious metals, currency, and other market information and advice — and are willing to pay top dollar for it.

Typical NewsmxFinance.com visitors are affluent, likely male baby boomers who want to take control of their financial future, as well as protect and grow their nest egg as they move toward retirement. Visitors are also treated to blue-chip financial advice from a variety of credible, financial sources such as Larry Kudlow, Peter Orszag, James Dale Davidson, Robert Wiedemer, Mohamed El-Erian, and Tom Hutchinson, among others.

- 200,000 average monthly unique page views
- 700,000 average monthly page views

---

All rates subject to change without notice. Content and links are subject to approval. Prepayment required. Minimum runtime of 24 hours. Display impressions are non-guaranteed.
DIGITAL FILE REQUIREMENTS

Advertisements Mechanical Requirements

Acceptable File Types

- JPEG (Joint Photographic Experts Group) format with .jpeg or .jpg extension
- PNG (Portable Network Graphics) format with .png extension.
- GIF (Graphic Interchange Format) with .gif extension
- Plain text ad script with .html extension
- All files must be able to be opened directly from Internet Explorer without modification.
- **Zipped files are not acceptable.** They are blocked by our email servers.

Web Optimization

- Creatives may not exceed 50kb
- No high contrast
- No flickering

Click Tags

- The variable name must be spelled “clickTAG” (uppercase TAG; no space between click and TAG) and not “click tag,” “Click Tag,” or any other form.

Actionscript 2.0

```actionscript
1 on (release){
2     if (clickTAG.substr(0,5) == "http:"){
3         getURL(clickTAG, "_blank");
4     }
5 }
```

Actionscript 3.0*

```actionscript
1 import flash.events.MouseEvent;
2 import flash.net.URLRequest;
3
4 buttonOrObjectReceivingClick.addEventListener(MouseEvent.CLICK,
5     function(event: MouseEvent): void {
6         flash.net.navigateToURL(new URLRequest(
7             root.loaderInfo.parameters.clickTAG), "_blank");
8     }
9 }
10 )
```

*Replace buttonOrObjectReceivingClick when using the Actionscript 3.0 click tag with the actual name of button or element that will be receiving the click.

It’s not necessary to specify the destination URL for the ad anywhere in this code; this is taken care of through the usage of clickTAG. Also, depending on the structure of your Flash ad, it may be necessary to prepend “_root.” or “_level0.” to “clickTAG” above, resulting in “_root.clickTAG” or “_level0.clickTAG.”
